

Free Fall

There are so many reasons why it's wrong and right
If you stay or if you go
Just can't take another sleepless night
With nothing more to show

Round and round we go forever
How will we know, maybe never
Close your eyes, pick a hand and go

*But what if one more step
Is the one I'm gonna regret
And I lose the bet after the call
Baby that's just life
And the best part of the surprise
It's all a free fall*

Which way to go, is it left or right?
So many choices here and gone
I look down the road for a sign of light
What if I'm am wrong

Round and round we go forever
How will we know, maybe never
We can only give it up to the chosen road

*But what if one more step
Is the one I'm gonna regret
And I lose the bet after the call
Baby that's just life
And the best part of the surprise
It's all a free fall*

One little boat on a stormy sea
With her bow into the wind
Tossed around on what will be will be
Then she turns about again
The captain at the wheel can only go by how she feels
And calls out - pull the lanyards in

Hell if one more step is the one I'm gonna regret

*And I lose the bet after the call
Well then that's just life and the best part of the surprise
It's all a free fall*
