

Mars

Take a look at the moon
Take a look at the sky
Looking up at the blue
And I wonder why
We think we've got to go up
We think we've got to go
Find a place to make another home

I don't know about you
But I don't think it's so smart
To think that we've got the time
To make brand new start
I'm quite comfortable here
Where we can breathe the air
I don't think is so easy living there

**What about all these trees and flowers
This sunny bay I could watch for hours
All that's growing out in the garden
Well I really don't think I can go
There's so much here to do you know
In this perfect home**

Why do we get so confused
Why do we make it so hard
We've got all that we need in our own backyard
When we learn to play nice
When we learn to share
We've got a pretty nice place down here

**What about all these trees and flowers
The woods we walk in and talk for hours
All that's growing out in the garden
Well I really don't think I can go
There's so much I love to do you know
It this perfect home**

*Why oh why oh why do you want to go
oh oh oh oh
So far so far to the great unknown*

Well you can run around nude
With no survival suit here
It's got all that you need

In an atmosphere
Majestic mountains and seas
And there's gravity
And don't forget we've got the birds and the bees

**What about all our crazy colours
Fall and winter and spring and summers
And what are you gonna do for water
I don't think you've really thought this through**

**What about all the trees and flowers
The scent after a summer shower
All that's growing out in the garden
Well I really don't think I can go
There's so much I love to do you know
It's the perfect perfect
Beautiful home**
